High-performance optical transceiver module designed for 100 Gigabit Ethernet links over single-mode fiber. This QSFP28 compliant device provides a maximum transmission distance of up to 40

In actual tests, it fully supports distances of 40 km with minimal signal loss,

Designed for extended reach, this 100G QSFP28 module facilitates transmission over distances up to 40km, utilizing a 1310 nm wavelength, making it an ideal solution for long-distance networking
