

Article Overview

Island Building Solutions and Bahamas Building Supply are key Bahamian suppliers of engineered building materials suitable for distribution box housings and other structural enclosures.

Key Suppliers

Island Building Solutions, Ltd. delivers precision-engineered, hurricane-rated building systems to the Bahamas and Caribbean, including structural frameworks and enclosure materials that can be adapted for housing electrical distribution boxes. Their products are designed for coastal resilience, with Category-5 hurricane-rated engineering, and include pre-fabricated panels, structural steel, and weatherproofing systems suitable for outdoor enclosures . Bahamas Building Supply provides advanced construction materials tailored for tropical and hurricane-prone environments. Their offerings include non-combustible, moisture-proof panels (SMART Board), corrosion-resistant fiberglass rebar (SMART Rebar), and marine-grade plywood (SMART Ply), which can be used to construct durable distribution box housings. They also supply hurricane-impact windows and doors, demonstrating expertise in resilient enclosures .

Additional Resources

- o Business Directories: The Bahamas Chamber of Commerce and Dun & Bradstreet listings include local manufacturing companies in Nassau, which may offer specialized electrical enclosures or custom fabrication services .
- o Customization Options: Both Island Building Solutions and Bahamas Building Supply provide engineered solutions that can be tailored to specific dimensions, materials, and environmental requirements, ensuring compliance with Bahamian building codes and hurricane standards .

Recommendations

For sourcing distribution box housings in the Bahamas:

- o Contact Island Building Solutions for pre-engineered, weatherproof enclosures suitable for electrical distribution in coastal areas.
- o Consult Bahamas Building Supply for materials and custom fabrication options using corrosion-resistant and hurricane-rated components.
- o Explore local manufacturing directories to identify smaller or specialized electrical enclosure manufacturers in Nassau or other islands. These suppliers provide durable, resilient solutions that meet the unique environmental challenges of the Bahamas, including high winds, salt exposure, and tropical weather.
