

Cable tray tee products available at various prices

Article Overview

Cable tray tees are available in equal and unequal types, for light, medium, and heavy duty systems, with prices typically ranging from GBP20 to GBP150 depending on size, material, and finish.

Types of Cable Tray Tees

1. Equal Tees: These tees have all three branches of the same width, ideal for symmetrical cable splits in a system . 2. Unequal Tees: These have one branch narrower than the other two, suitable for connecting a smaller cable run to a main tray . 3. Crossovers: While not strictly tees, crossovers allow two cable runs to intersect smoothly and are often used alongside tees for complex layouts . Duty Ratings:

- o Light Duty: For smaller cable loads, typically in office or residential installations .
- o Medium Duty: Common in commercial buildings, supporting moderate cable weight .
- o Heavy Duty: Designed for industrial or high-capacity installations, supporting large bundles of cables .

Materials and Finishes:

- o Mild Steel Pre-Galvanised (PG): Standard, cost-effective option .
 - o Mild Steel Hot-Dip Galvanised (HDG): Offers enhanced corrosion resistance .
 - o Stainless Steel Grade 1.4404 (316L): High corrosion resistance for harsh environments, available to order .
- Sizes: Widths range from 50mm to 900mm, with depth and height options varying by manufacturer .

Prices

- o Pre-Galvanised Medium Duty Equal Tee: Approximately GBP20-GBP50 for smaller sizes (e.g., 100-300mm width) and GBP50-GBP100 for larger widths .
- o Hot-Dip Galvanised or Stainless Steel Tees: Prices can range from GBP80 to GBP150 depending on size and material .
- o Unequal Tees and Crossovers: Typically slightly higher than equal tees of the same size due to custom dimensions .

Additional Considerations

- o Covers: Closed or ventilated covers are available for all tees, adding protection and airflow management .
- o Compatibility: Ensure the tee matches the tray system in width, depth, and duty rating. Accessories like bends, risers, and couplers may be needed for a complete installation .
- o Suppliers: UK-based suppliers include Metsec, Shop4 Electrical, and TradeSparky, offering online ordering and delivery . By selecting the appropriate type, material, and size, cable tray tees can provide a durable and organized solution for branching cable runs in any electrical installation.
