The project brought together China Telecom, Yangtze Optical Fibre and Cable Joint Stock Limited Company, and Dekoli under a national research initiative focused on advanced optical fiber technologies. The test was carried out on the world's longest commercial. The 2Africa project is a collaboration between China Mobile and several international telecom operators, including Meta (formerly Facebook), Vodafone, Orange, Center3 (formerly STC), Bayobab (formerly MTN), WIOCC, and Telecom Egypt. When it was first announced in May 2020, 2Africa was 37,000 km in length, connecting 23 countries, including 21 landings in 16. The launch of 2Africa enables us to offer our customers seamless connection between Africa and Europe, together with our SEA-ME-WE 5 and AAE-1 subsea cable resources to further extend to Asia, which is an important milestone of our global development strategy," said Jessica Gu, Director & Chief. Meta and its consortium partners have completed the core 2Africa subsea cable system, marking a major milestone in what is set to become the world's longest open-access fibre optic network. 20, 2025 /PRNewswire/ -- China Mobile International Limited (CMI), along with seven global partners including Bayobab, center3, Meta, Orange, Telecom Egypt, Vodafone Group, and WIOCC, has jointly completed the core 2Africa Submarine Cable Infrastructure (2Africa).
