

Complete List of Dutch Explosion-Proof Distribution Box Models

Article Overview

Dutch explosion-proof distribution boxes are available in multiple series and materials, including Atex Delvalle's Contrex, DVT, and Terbox series, as well as R. STAHL, Supermec, and ROSE Systemtechnik enclosures, all certified for hazardous areas.

Atex Delvalle Series

- o Contrex Series: Stainless steel AISI 304 or 316L enclosures, configurable with ATEX & IECEx certified push buttons and control units, suitable for outdoor and extreme temperature conditions .
- o DVT Series: GRP (glass-reinforced polyester) control boxes, flexible in size, terminals, operators, and cable glands, fully configurable for hazardous areas .
- o Terbox Series: Stainless steel Ex E terminal and junction boxes, designed for installations in hazardous zones 1 and 2, offering robust protection and worldwide certifications .

R. STAHL Terminal and Junction Boxes

- o Standard and Custom Models: Available for immediate delivery or bespoke configurations, certified for global hazardous area installations, including Ex e and Ex d types .

Supermec Explosion-Proof Enclosures

- o EJB A Series: Ex d enclosures for chemical, petrochemical, and offshore applications, designed for power distribution and monitoring .
- o EJB S Series: Explosion-proof junction boxes for similar industrial applications, optimized for monitoring and control .
- o CSD Series Ex d Enclosures: Heavy-duty enclosures for hazardous atmospheres, suitable for power distribution and control .
- o GUB A Series: Ex d enclosures for offshore and refinery environments, resistant to corrosive conditions .

ROSE Systemtechnik Ex Enclosure Systems

- o Aluminium Ex Enclosures: Pre-assembled terminal enclosures with approved terminal blocks and cable glands, available in ATEX and Ex i variants .
- o Polyester Ex Enclosures: Insulating, V0-rated, suitable for harsh indoor and outdoor environments .
- o Stainless Steel Ex Enclosures: High-quality, ATEX-compliant enclosures for various gas groups and temperature ranges .

ATEX Global Certified Boxes

o Junction Boxes, Terminals, Sockets & Connectors: Explosion-proof solutions compliant with ATEX 94/9/EC and IEC standards, suitable for hazardous atmospheres . These series cover the main Dutch and European explosion-proof distribution box models, offering a range of materials, sizes, and certifications for industrial, offshore, and chemical applications. For exact specifications, dimensions, and ordering options, consulting the manufacturer catalogs or contacting their technical support is recommended.

Ex Electrical Equipment for Hazardous Area & Industrial Explosion Protection MAM is a professional Explosion Proof Electrical

Fidelity's learning center has a variety of financial insights by offering everything from articles on market trends to live webinars on

Terminal boxes for safe installation in hazardous areas Safely conduct, connect and distribute energy in hazardous areas with R.

We also offer a variety of explosion proof fittings, accessories, and instrument and meter housings - all at a

Durable Hexlon Explosion Proof Distribution Boxes and Electrical Enclosures, IECEx and ATEX certified for Zone 1 and Zone 2.

Warom Explosion proof Distribution Boxes. Modular GRP construction fitted with a variety of optional components..

HRMD91 Explosion proof Distribution Box Explosion protection to - IEC - CENELEC - NEC Can be used in Zone 1 and Zone 2

Explosion protective components & systems From its global facilities ABB manufactures a wide range of ATEX, IECEx, UL, CSA

The Ex d TBE series of enclosures is suitable for use in Gas Group IIC for the protection of electrical and control-system solutions,

Explosion proof Lighting Distribution Box, products shock-resistant and durable, energy-saving and environmentally friendly, models

The modular design allows for tailored configurations that align with specific technical and environmental

Complete List of Dutch Explosion-Proof Distribution Box Models

needs. High degree of

Explosion-proof boxes are critical for safely housing: Cable terminations and connections

Flameproof and explosion proof, these power overhaul distribution boxes are suitable for use in hazardous areas. Specs: Ex mark:

Explosion-proof lighting distribution boxes and cabinets come in a variety of models. They vary in terms of materials,

An explosion-proof distribution box is a specialized enclosure designed to contain internal explosions and prevent the escape of

For electrical distribution in potentially explosive atmospheres, ROSE Ex enclosures made of aluminum, polyester and stainless
