

Article Overview

Notable Czech and European brands for outdoor power distribution boxes include Konner & Sohnen, Selhot Electric, and PCE, offering weatherproof, durable, and customizable solutions.

Key Brands and Features

Konner & Sohnen

- o Offers distribution boards suitable for indoor and outdoor use, supporting up to 7 device groups with a maximum current of 32A.
- o Features include circuit breakers, grounding bars, integrated sockets, and rugged enclosures for impact and weather resistance.
- o Designed for homes, construction sites, and heavy-duty industrial applications, ensuring safety and long service life . Selhot Electric
- o Specializes in IP65/IP67 waterproof distribution boxes made from UV-resistant PC/ABS materials.
- o CE and TUV certified, with options for custom knockouts and configurations.
- o Suitable for outdoor environments requiring high protection against dust, water, and UV exposure . PCE (PC Electric)
- o Produces a full range of rubber, metal, and plastic distribution boxes, including industrial-grade outdoor models.
- o Known for CEE industrial plugs and sockets, earthing contact plugs, and robust enclosures for outdoor applications . Weisho Electric
- o Offers cable distribution boxes for medium voltage outdoor and underground networks.
- o Features include tamper-resistant, weatherproof enclosures, fault interrupters, vacuum switches, and fuse options.
- o Customizable for voltage levels, connector types, and compact spaces, with full technical support and long-term spare parts availability .

Considerations for Selection

- o IP Rating: Ensure the box meets IP65 or higher for outdoor protection.
- o Material: UV-resistant plastics or metal enclosures improve durability.
- o Current Capacity: Match the box rating to your load requirements.
- o Customization: Some brands allow tailored configurations for sockets, breakers, and mounting options.
- o Certifications: CE or TUV certifications indicate compliance with European safety standards. These brands provide reliable options for outdoor power distribution in Czechia, suitable for residential, commercial, and industrial applications.
