

El Salvador fiber optic cable pre-buried pipe manufacturer

Preview

Liberty Networks has been selected by El Salvador's telecommunications regulator to design, construct and operate the country's first submarine cable, ending the nation's reliance on terrestrial connections to international networks. New 1,800 km cable will connect El Salvador to major international hubs, boosting high-speed internet capacity and resiliency.

Loose tube fiber optic cables are high-density, lightweight, and durable for easy handling and installations. They contain buffer tubes with either 12 or 24 single

La empresa estadounidense manifest#243; en un comunicado que fue seleccionada por el regulador de telecomunicaciones de El Salvador, SIGET (Superintendencia General de Electricidad
