

Article Overview

A 96-core optical fiber cable typically costs between \$1 and \$6 per foot, depending on type, construction, and application.

Price Range

The cost of a 96-core fiber optic cable varies widely based on fiber type, cable construction, and installation environment. For single-mode outdoor cables with PE jackets, prices generally range from \$1 to \$6 per foot for retail purchases, while wholesale bulk purchases may be slightly lower at \$0.09 to \$1.52 per foot . High-end armored or multi-tube cables designed for harsh environments can reach the upper end of this range .

Factors Affecting Cost

- o Fiber Type: Single-mode fiber (OS2 or G652D) is commonly used for long-distance applications and is slightly cheaper per foot than multimode fiber .
- o Cable Construction: Armored cables, steel jackets, or multi-tube designs increase durability but also raise costs . Non-armored or indoor-rated cables are less expensive.
- o Installation Environment: Outdoor, UV-resistant, or direct-burial cables cost more than indoor riser-rated cables .
- o Length and Volume: Bulk orders or longer runs reduce per-foot cost, while custom-cut lengths or urgent orders may increase it .

Example Products

- o HES 96-Core Steel Armored Single Jacket Cable: Designed for long-distance, high-capacity networks, suitable for telecom and data centers .
- o Corning ALTOS 96-Strand Loose Tube Cable: All-dielectric, gel-free, outdoor cable with FastAccess technology, optimized for aerial and duct installations .

Summary

For a 96-core optical fiber cable, expect a retail price of roughly \$1-\$6 per foot, with armored, outdoor, or specialized cables at the higher end. Bulk purchases or standard single-mode cables may be closer to \$1-\$2 per foot. The final cost depends on the cable's fiber type, construction, environmental rating, and length.

Factory Price of 96-core Optical Cable

Find 96 core price OPGW cable for reliable communication. High-quality optical fiber cables for various needs. Shop now for durable

A new Water-Resistant Loose Tube ADSS Optical Fiber Cable is now available in core

Discover our 96 core fiber optical cable, perfect for communication networks at close to \$0.01 per unit. Ideal for wholesalers and
