

Article Overview

Popular brands of fiber optic KVM extenders include Raritan, Adder, Aten, Austin Hughes, Smart-AVI, Rose, Rittal, and Rextron.

Key Brands and Their Offerings

- o Raritan: Offers fiber KVM extenders suitable for secure and long-distance applications, supporting multiple video interfaces and USB connectivity .
- o Adder: Known for high-performance fiber KVM solutions, including single-mode and multi-mode extenders for industrial and commercial environments .
- o Aten: Provides fiber-based KVM extenders with support for dual or multiple monitors, USB peripherals, and long-distance transmission .
- o Austin Hughes: Specializes in fiber KVM extenders for professional AV and IT setups, often used in high-EMI environments .
- o Smart-AVI: Offers fiber optic KVM extenders with support for HDMI, DVI, and DisplayPort, suitable for both short and long-range connections .
- o Rose Electronics: Provides fiber KVM extenders for secure and reliable remote access to servers and workstations .
- o Rittal: Supplies KVM solutions including fiber extenders, often integrated into server racks and industrial setups .
- o Rextron: Offers fiber-optical KVM extenders capable of transmitting video, audio, USB, IR, and RS-232 signals up to 70 km, supporting resolutions up to 4K 60Hz and multiple video interfaces like HDMI, DVI, DisplayPort, and USB-C .

Applications and Advantages

Fiber optic KVM extenders are ideal for:

- o Long-distance connections: Extending KVM signals from hundreds of meters up to 70 km .
- o High-EMI environments: Optical fiber is immune to electromagnetic interference, ensuring signal integrity .
- o Secure data transmission: Fiber reduces the risk of data interception compared to copper cabling .
- o Multi-video and peripheral support: Many brands support dual or triple monitors, USB devices, audio, and serial communication . These brands provide a range of solutions for industrial, commercial, and secure IT environments, making it easier to select a fiber KVM system that fits specific distance, video, and peripheral requirements.
