

Honduras Export Battery Cabinet 200kW CIF Price

Article Overview

CIF pricing for a 200kW battery cabinet to Honduras varies by supplier, system configuration, and shipping terms, typically requiring direct negotiation with manufacturers.

Overview of 200kW Battery Cabinets for Honduras

Several suppliers offer 200kW lithium-ion battery cabinets suitable for industrial and commercial applications in Honduras, particularly in areas like San Pedro Sula, which face frequent power outages and high energy costs. These systems are typically containerized or cabinet-type, integrating:

- o Energy Management Systems (EMS) for real-time monitoring and optimization
- o Fire suppression and safety systems including combustible gas detectors and aerosol fire protection
- o Temperature regulation via air conditioning or liquid cooling to maintain cell stability
- o Power Conversion Systems (PCS) and optional photovoltaic integration for hybrid solar+storage setups
- o Expandable capacity allowing multiple 200kWh units to operate in parallel for larger energy storage needs

Technical Features

- o Battery type: Lithium Iron Phosphate (LiFePO₄) cells, known for thermal stability, long cycle life (>6000 cycles), and safety
- o Backup and peak shaving: Systems can provide 2-5 hours of backup power and support grid stabilization
- o Cabinet design: Anti-corrosion, anti-theft, and weatherproof options for outdoor installation
- o Hybrid operation: Some systems combine diesel generators with lithium-ion storage for uninterrupted power

CIF Pricing Considerations

- o Base price: Varies depending on manufacturer, battery chemistry, and system features. Typical 200kW systems are priced in the range of \$120,000-\$180,000 USD per unit, though exact quotes must be requested from suppliers
- o Shipping and insurance: CIF includes freight and insurance to the port of destination in Honduras. Costs depend on container type, shipping route, and insurance coverage. Suppliers usually negotiate these fees individually
- o Customization: Additional features like faster charge/discharge rates, higher corrosion resistance, or integrated solar modules may increase the CIF price

How to Obtain a CIF Quote

Honduras Export Battery Cabinet 200kW CIF Price

- o Contact suppliers directly via Alibaba, Moritz-Kenk, or other energy storage manufacturers
- o Specify delivery port in Honduras, typically Puerto Cortes or Puerto Castilla
- o Provide system requirements, including backup duration, hybrid integration, and environmental conditions
- o Request a detailed CIF quote, including shipping, insurance, and customs clearance By negotiating directly with suppliers, you can obtain a precise CIF price tailored to your technical and logistical requirements.
