

Article Overview

TEP Ex and Infoprot Kft. are key Hungarian manufacturers of explosion-proof electrical distribution boxes, offering ATEX and IECEx certified solutions.

TEP Ex

TEP Ex is a leading manufacturer of explosion-protected electrical equipment, including Ex terminal boxes, Ex junction boxes, Ex control units, and Ex distribution cabinets. Their products are designed for use in potentially explosive atmospheres such as petrochemical plants, refineries, pharmaceutical industries, food processing, shipbuilding, and mining. TEP Ex ensures compliance with ATEX Directive 94/9 EC, as well as certifications for the Russian market (EAC). Their production adheres to EN ISO 9001:2008 and EN ISO/IEC 80079-34:2011 standards, guaranteeing safety and reliability in hazardous environments .

Infoprot Kft.

Infoprot Kft., based in Hungary, specializes in low-voltage electrical distribution products, including customized distribution boards and cabinets. They also provide solutions for renewable energy plants and energy storage systems, ensuring a comprehensive approach to electrical distribution and management. Their expertise includes planning, design, and manufacturing of Ex-certified distribution boxes suitable for industrial applications .

Product Features and Certifications

- o Materials: Stainless steel, aluminum, and GRP (glass-reinforced polyester) enclosures for durability and corrosion resistance.
- o Certifications: ATEX, IECEx, and other international standards for hazardous area installations.
- o Customization: Both companies offer bespoke solutions tailored to specific industrial requirements, including control units, motor starters, and terminal arrangements.
- o Applications: Suitable for zones with explosive gases, vapors, or dust, ensuring safety in chemical, petrochemical, pharmaceutical, and food processing industries.

Summary

For industrial projects in Hungary requiring explosion-proof electrical distribution boxes, TEP Ex and Infoprot Kft. are reliable manufacturers offering certified, customizable, and high-quality solutions. Their products meet international safety standards and are suitable for a wide range of hazardous environments .

Hungarian supplier of explosion-proof electrical distribution boxes

Flameproof and explosion proof, these power overhaul distribution boxes are suitable for use in hazardous

Explosion-proof distribution panels are vital components in hazardous industrial environments, ensuring safety by preventing

BARTEC offers one of the most extensive ranges of explosion-proof and substance-resistant components, devices, and systems for

NO-NAIL BOXES (Groupe ALIPA) produces folding boxes made of plywood and steel used for packaging, transport, and storage by

Durable Hexlon Explosion Proof Distribution Boxes and Electrical Enclosures, IECEx and ATEX certified for Zone 1 and Zone 2.

Productos Ex Local Control Stations & Distribution Boxes Atexdelvalle offers world-class explosion-protected solutions guaranteeing

Infoprot Kft. specializes in the design and manufacturing of low-voltage electrical distribution products, including customized

24 suppliers for hungarian-cast-aluminum-distribution-box-explosion-proof-specifications
