

Integrated Communication Fiber Fusion Tray

Preview

CD-24F-FS-W 24 Fibers Splice Tray provides secure organization and protection for up to 24 fusion splices, ensuring reliable performance in FTTx, data center, and enterprise networks. Its compact capacity and stackable design make it ideal for small-scale or distributed fiber. OTRANS strives to provide you with professional, reliable and comprehensive optical fiber tray, covering fusible fiber module box, MPO module box, fusible tray, integrated tray, etc. Organize fiber connections with easeO Double-layer tray PW-YTH-Y102 V2. OPTIchannel Splice Tray, 7", 12-Fiber, Fusion.

store and to protect the fiber cables and the splices. Each tray provides space for

The 12-Fiber transparent fusion splice tray is ideal for fusion splicing single fiber. The see through cover and mylar insert enable easy viewing when visual fault

Light Reading is the leading source of news analysis for communications industry professionals.

A fusion splice tray can hold up to 24 splices & possibly allow splice trays to be stacked together for use with higher strand number fiber optic cables.

OPTIchannel Splice Tray, 7" 12-Fiber, Fusion.

These aluminum trays come with a clear, snap-on polycarbonate cover and can be stacked for high-density applications. The standard tray holds up to 24 splices.

This enclosure includes one 24 single fusion splice tray and a capacity for up to six splice trays. Cleaning your fiber connector end faces and components regularly
