Intelligent Power Distribution Units - switched, metered and monitored PDUs for data centers, telecom and industrial applications. Designed to simplify deployment and take stress out of power distribution, this intelligent PDU helps reclaim valuable hours. With advanced metering, remote monitoring, and. An intelligent PDU, also known as smart PDU, goes beyond distributing power to IT equipment within the data center. Our portfolio includes 10" and 19" PDUs as well as vertical rack power strips, offering flexible options for. Would you like to confirm the country change? Compare intelligent PDU types--basic, metered, monitored, and switched--and learn how

Intelligent PDUs also have built-in network connectivity that allows them to communicate with other devices in the data

What is an intelligent PDU? Rick Gonedes April 11, 2018 An Intelligent Power Distribution Unit (iPDU) is a networked

An intelligent PDU, also known as smart PDU, goes beyond distributing power to IT equipment within the data center. It is capable of

An intelligent PDU, or smart PDU, goes beyond distributing power to data center IT equipment. It is capable of monitoring, managing,

Common Characteristics of Intelligent PDUs Despite differences in design and functionality among manufacturers,

Smart PDUs are also known as intelligent PDUs or networked PDUs. Marway's smart PDUs features

PDU - LOCALLY MONITORED & REMO... Norden Power Distribution Units are designed to improve uptime and energy efficiency

Intelligent PDU Monitoring with DCIM Software Data Center Infrastructure Management (DCIM) software is often used to enhance

Connecting the PDU to a LAN provides communication through an Internet or Intranet connection enabling

Intelligent PDU Communication

monitoring and control

Explore a diverse selection of Intelligent PDUs, including Enlogic PDUs, tailored to suit your unique requirements. From basic

Elcom Smart PDUs add intelligence to rack power distribution that improves Power Usage Effectiveness at Data Center. Managers

Our Smart PDU enables real-time monitoring of power consumption, temperature, and environmental

Smart PDU Intelligent Power Distribution Units for remote management, monitoring and control. Factory-direct from an ISO9001

Changing your location may affect product availability. Certain products may not be available in all international regions. Current

Connecting the PDU via Ethernet Port Connecting the PDU to a LAN provides communication through an Internet or
