

Article Overview

Key manufacturers and suppliers of fiber optic cable protection pipes in Ivory Coast include Nexans Cote d'Ivoire and SOTICI, with additional international options like Protectorshell, Pipelife, and EVODUCT.

Local Manufacturers and Suppliers

Nexans Cote d'Ivoire is a prominent local supplier offering a wide range of CODINORM-certified products, including fiber optic cables and related infrastructure components. Their products meet high safety standards and are supported by technical services, making them suitable for telecom and power projects across Ivory Coast, including Abidjan, San Pedro, and Yamoussoukro . SOTICI operates an ISO 9001-certified factory producing PVC and polyethylene pipes suitable for telecom and fiber optic networks. Their offerings include:

- o PVC tubes (20mm-630mm diameter)
- o HDPE telecom ducts (20mm-250mm diameter) delivered in coils of 100-1000 meters
- o ICTA ducts with polypropylene sheaths for flexible, flame-resistant protection
- o Accessories and fittings for installation and network expansion SOTICI exports to over 26 African countries, making them a reliable regional supplier.

International Manufacturers

Protectorshell specializes in split pipe systems for fiber optic, subsea, and offshore wind cables. Their ductile iron pipes provide abrasion and impact protection and are manufactured in Spain and Australia. They offer a range of sizes (55mm-260mm ID) and accessories for offshore and onshore cable protection . Pipelife provides rigid and flexible cable protection pipes made of PE, PP, or PVC. Their systems are suitable for underground, overground, and renewable energy projects. They offer smooth and corrugated options, large-diameter HDPE pipes up to 600 meters, and specialized ducts for high-speed fiber optic installations . EVODUCT manufactures rigid HDPE conduits for underground optical cable systems. Their pipes are available in rolls or straight lengths, with smooth or ribbed inner surfaces, suitable for direct burial, concrete encasement, or water crossings. Custom wall thickness and color options are available to meet project-specific requirements .

Summary

For fiber optic cable protection in Ivory Coast:

- o Local options: Nexans Cote d'Ivoire and SOTICI provide certified, regionally available pipes and ducts.
- o International options: Protectorshell, Pipelife, and EVODUCT offer specialized solutions for

Ivory Coast Fiber Optic Cable Protection Pipe Manufacturer

high-performance, offshore, or large-scale projects.

- o Materials: PVC, HDPE, PP, and ductile iron are commonly used, with options for flexible, rigid, flame-resistant, and abrasion-resistant designs.
- o Applications: Underground, overground, subsea, and renewable energy installations. These manufacturers provide both standard and customizable solutions to meet the technical and regulatory requirements of fiber optic infrastructure projects in Ivory Coast.
