

Latest price inquiry for galvanized cable trays in Samoa

Article Overview

Galvanized cable trays in Samoa are available from local suppliers like Brilltech Engineers, with prices generally ranging from \$2 to \$25 per meter depending on type, size, and coating.

Local Suppliers in Samoa

Brilltech Engineers is a known supplier and manufacturer of galvanized cable trays in Samoa, offering products suitable for industrial and commercial applications at affordable prices . They provide standard hot-dip galvanized ladder-type trays, which are commonly used for heavy-duty cable management .

Price Range

- o Per meter cost: Galvanized steel cable trays typically range from \$2 to \$25 per meter, influenced by material quality, tray type (ladder, perforated, or wire mesh), and surface finish .
- o Standard length: Many suppliers price trays based on a 2.4-meter standard length for ladder-type trays .
- o Bulk orders: Ordering in bulk can reduce the per-unit cost significantly, especially for large construction or industrial projects .

Factors Affecting Price

- o Material and Coating: Hot-dip galvanized (HDG) trays are more durable and corrosion-resistant but cost more than pre-galvanized options .
- o Tray Type: Ladder trays are more expensive due to their load-bearing capacity, while perforated or wire mesh trays are cheaper and suitable for lighter cables .
- o Shipping and Labor: Costs may increase depending on delivery logistics to Samoa and installation requirements .

Recommendations

- o For industrial or outdoor use, HDG galvanized steel ladder trays are recommended for durability.
- o For lightweight or indoor applications, perforated or wire mesh trays can reduce costs by 10-15%.
- o Contacting local suppliers like Brilltech Engineers directly can provide exact quotes and availability for specific project requirements . By considering these factors, buyers in Samoa can select galvanized cable trays that balance cost, durability, and installation efficiency.
