

Article Overview

Leading manufacturers of large-span cable trays include Canhope Steel, OBO, Oglaend System, Tianhong, and top Chinese suppliers like Langfang Hangke and Shandong Tianhong.

Key Manufacturers and Offerings

Canhope Steel specializes in heavy-duty large-span cable trays designed for industrial and commercial applications. Their trays are made from high-strength galvanized steel or stainless steel, offering excellent load-bearing capacity, corrosion resistance, and modular designs for easy installation. They provide ladder-type, perforated, and solid-bottom trays suitable for power plants, tunnels, and petrochemical projects . OBO offers wide-span cable trays for industrial installations, focusing on robust support systems for electrical and instrumentation cables . Oglaend System produces cable trays in stainless steel, galvanized steel, aluminum, and fiberglass composites. Their products include cable ladders for heavier loads, with various heights, widths, and slot patterns for flexible installation both onshore and offshore . Tianhong Cable Tray (Shandong Tianhong Electric Power Technology Co., Ltd.) is a leading Chinese manufacturer with over 20 years of experience. They provide perforated trays, cable ladders, trunking, strut channels, and fittings. Their production lines are automated, ensuring consistent quality, and they offer OEM/ODM services for customized solutions across power plants, data centers, and commercial buildings . Top Chinese Manufacturers include Langfang Hangke Power Equipment Co., Ltd., Langfang Senneng Energy Technology Co., Ltd., Hebei Xinning Metal Products Co., Ltd., and Shandong Wanzhu Metal Products Co., Ltd. These companies are recognized for their large-span cable trays, stainless steel options, and comprehensive accessory offerings, making them suitable for heavy industrial projects .

Considerations for Selection

- o Material: Choose between galvanized steel, stainless steel, aluminum, or fiberglass based on environmental conditions and corrosion resistance needs.
- o Load Capacity: Ensure the tray supports the weight and span required for your project.
- o Customization: Some manufacturers offer modular designs and OEM/ODM services for tailored solutions.
- o Installation: Modular and pre-fabricated systems reduce installation time and labor costs.
- o Project Type: Consider whether the trays are for indoor, outdoor, offshore, or high-temperature environments. These manufacturers provide reliable, durable, and customizable large-span cable tray solutions suitable for a wide range of industrial and commercial applications.

The length of the ordinary bridge is about 2M, and the length of the large span bridge can be customized, 3m,
