

Article Overview

Several Nigerian companies offer customizable distribution and communication boxes, including Fembosco Engineering, EWJ, Reliable Electrics, and Oroson, providing tailored solutions for industrial, commercial, and residential applications.

Key Manufacturers and Suppliers

Fembosco Engineering Limited is a leading supplier of electrical and industrial systems in Nigeria. They provide high-quality electrical panels, distribution boards, and surface terminal shield boxes suitable for both home and industrial use. Their products include complete cable management systems, circuit breakers, and switches, ensuring reliable and safe installations. EWJ specializes in customizable electric distribution boxes made from premium iron or stainless steel. Their boxes feature advanced powder coating for corrosion resistance, tempered glass front doors for easy monitoring, and fully customizable internal layouts and external dimensions. They are designed for industrial and commercial environments, supporting heavy-duty equipment up to 60KG, with efficient heat dissipation and flexible mounting options. Reliable Electrics Limited offers a range of distribution boxes including SPN (Single Pole & Neutral) and TPN (Triple Pole & Neutral) configurations. Their products are designed for safe and efficient power distribution, suitable for single-phase and three-phase electrical systems, ensuring protection and reliability for various installations. Oroson provides distribution boxes suitable for AC50/60 Hz circuits, with rated voltages up to 415V and currents up to 125A. Their boxes are made from cold-rolled sheet steel or stainless steel with powder-coated finishes. They offer flush and surface mounting, single and three-phase options, indoor/outdoor usage, and the ability to print custom logos. Delivery times are short, and pricing is competitive.

Customization Features to Consider

- o Material: Iron, stainless steel, or cold-rolled sheet steel with powder coating for durability and corrosion resistance.
- o Size and Layout: Custom external dimensions and internal mounting brackets to fit specific equipment.
- o Load Capacity: Support for heavy-duty electrical or communication devices.
- o Installation: Flexible mounting options including wall and pillar mounts.
- o Additional Features: Tempered glass doors, ventilation slots for heat dissipation, and optional branding or logo printing. These manufacturers provide tailored solutions for businesses and individuals seeking reliable, durable, and customizable distribution boxes in Nigeria, suitable for both electrical and communication applications.
