

Article Overview

Stansefabrikken is one of Norway's leading manufacturers of electrical distribution boxes, offering a wide range of cabinets for residential, commercial, and industrial use.

Key Manufacturers and Suppliers

Stansefabrikken specializes in electrical cabinets, including traditional fuse boxes and modern "Elektro line" cabinets. Their products emphasize flexibility, user-friendliness, and competitive pricing, and they distribute through wholesalers across Norway . The company combines long-standing tradition with research and development to provide durable and functional solutions. Efa Elektro AS provides complete energy distribution solutions, including distribution blocks, circuit breakers, and electrical installations for construction and building projects. They maintain a large stock and a project department to meet specific customer needs in the electrotechnical sector . WE Energy AS focuses on electrical installations and automation, particularly for the oil and energy sectors, and offers prefabricated solutions that enhance installation efficiency and safety . ON Energi delivers, constructs, and operates electrical installations, including high-voltage infrastructure up to 132 kV, making them a key player in electrical distribution projects . Vestfold Trafo Energi AS specializes in transformer services, including repair, sale, rental, and recycling, supporting reliable electrical distribution systems .

Additional Notable Companies

Other companies involved in electrical distribution in Norway include Nexans Norway AS, which manufactures power and installation cables and supports electrification projects with local expertise and factories in Halden, Langhus, and Rognan, and Provstromspesialisten, which provides temporary electrical distribution solutions for construction projects .

Summary

Norway has a robust network of manufacturers and suppliers for electrical distribution boxes and related components. Stansefabrikken is a primary factory for electrical cabinets, while companies like Efa Elektro AS, WE Energy AS, and ON Energi provide comprehensive distribution solutions and installation services. These companies serve a range of sectors, from residential and commercial to industrial and high-voltage infrastructure projects, ensuring reliable and safe electrical distribution across the country.
