

Article Overview

Top-selling ONTs include the VSOL XG (S)-PON 10GE ONT for enterprise use and the VSOL Triple-Play Wi-Fi 5 ONT for home networks, both widely available and highly rated.

Popular ONT Models

1. VSOL XG (S)-PON 10GE ONT

- o Designed for enterprise-grade performance with ultra-fast 10Gbps speeds.
- o Supports XGS-PON standards for high-capacity fiber networks.
- o Multiple Ethernet ports and advanced security features like WPA3 and anti-DDoS protection.
- o Ideal for large offices or high-demand users requiring low latency and high throughput .

2. VSOL Triple-Play Wi-Fi 5 ONT

- o Budget-friendly option for home networks.
- o Supports GPON and Wi-Fi 5 for reliable connectivity.
- o Includes Ethernet, POTS, and CATV ports for versatile home use.
- o Plug-and-play setup simplifies installation for non-technical users .

3. Tellabs FlexSym ONT Series

- o ONT202: Multi-gigabit Ethernet options (1G, 2.5G, 5G, 10G) over XGS-PON.
- o ONT203W-TAA: 3-port Ethernet with two 1G and one 2.5G port.
- o 180CHP and 140CL: High-density gigabit Ethernet for enterprise LANs.
- o Scalable and suitable for modern office and campus environments .

Key Features to Consider

- o Speed and Standard: Choose GPON for home use, XGS-PON or 10G PON for enterprise.
- o Wi-Fi Support: Wi-Fi 6 or 7 for high-speed wireless coverage.
- o Ports: Ensure sufficient Ethernet, USB, and POTS ports for your devices.
- o Security: WPA3, firewall, and anti-DDoS protection for safe network operation.
- o Ease of Installation: Plug-and-play or tray-mounted fiber structures simplify setup.

Availability

- o These models are currently in stock through suppliers like VSOL, Accio.ai, FS, and Accio.com, with options for bulk orders or single-unit purchases .

ONT optical network terminal best-selling model available in stock

Enterprise models like the VSOL XG (S)-PON 10GE ONT and Tellabs FlexSym ONTs are widely used in corporate and campus networks, while home-focused ONTs like the VSOL Triple-Play Wi-Fi 5 ONT are popular for residential fiber deployments. Choosing the right ONT depends on your network size, speed requirements, and device compatibility, but these best-selling models provide reliable, high-performance options for both home and enterprise fiber networks.
