

Polish CIF price 2-core fiber optic patch panel

Article Overview

CIF prices for 2-core fiber optic patch panels in Poland vary depending on manufacturer, panel type, and shipping terms, typically ranging from EUR20 to EUR60 per unit for standard 1U 19" panels.

Overview of Polish Suppliers

Several Polish companies manufacture and supply fiber optic patch panels suitable for 2-core connections:

- o Fibrain: Offers 19", 1U cable organizers with labeling fields, suitable for structured cabling systems and industrial applications .
- o Netprom: Specializes in single- and multimode fiber installations, including patch panels for difficult environments and industrial plants .
- o FCA: Provides panel-mounted and modular fiber optic distribution boxes with sliding drawers for easy access and protection of fiber connections, ideal for high-density networks .

Factors Affecting CIF Price

The CIF (Cost, Insurance, and Freight) price includes the product cost, insurance, and shipping to the destination port. Key factors influencing the price include:

- o Panel type and size: Standard 1U 19" panels are generally less expensive than high-density or modular panels.
- o Number of cores: A 2-core panel is a low-capacity option, which is typically cheaper than 12-core or 24-core panels.
- o Material and build quality: Industrial-grade panels with protective sliding drawers or modular designs may increase the cost.
- o Shipping and insurance: CIF pricing depends on the destination port, shipping method, and insurance coverage.

Estimated Price Range

Based on typical Polish suppliers and standard 2-core 1U patch panels, CIF prices are estimated between EUR20 and EUR60 per unit, excluding bulk discounts or special project requirements. For precise pricing, it is recommended to contact suppliers directly such as Fibrain, Netprom, or FCA, providing the delivery port and quantity to obtain an accurate CIF quote .

Recommendation

Polish CIF price 2-core fiber optic patch panel

To get the most accurate CIF price:

- o Specify the exact panel model and number of cores.
- o Provide the destination port for shipping.
- o Request a formal quotation from multiple Polish suppliers to compare costs, shipping, and insurance. This approach ensures you receive a competitive and realistic CIF price for your 2-core fiber optic patch panel purchase.
