

Price List for Pure Electric Optical Cable Traction Machines

Article Overview

The price of a pure electric optical cable traction machine typically ranges from \$2,000 to \$10,000 USD, depending on specifications, capacity, and supplier.

Price Range and Factors

Electric optical cable traction machines, also known as fiber optic cable pullers or cable tractors, vary in price based on pulling capacity, automation features, and cable diameter compatibility. Standard models generally start around \$2,000-\$3,000 USD, while larger, intelligent, or fully automated units can cost up to \$10,000 USD or more . Customization, OEM/ODM services, and additional features like automatic threading, overhead cable stabilization, or pole machine integration can increase the price .

Suppliers and Lead Time

- o Alibaba suppliers such as Shandong Pinjia Machinery and Hebei Long Zhuo Trade Co., Ltd. offer a range of electric cable pullers with CE certification and support for OEM/ODM .
- o Lead time for standard models is typically 15-30 days, while customized units may require 30-45 days .
- o Shipping costs and delivery dates are usually negotiated directly with the supplier .

Additional Considerations

- o Ensure the machine meets CE or other relevant certifications for safety and compliance .
- o Verify the pulling capacity matches your cable type and installation environment.
- o Consider after-sales support, especially for overseas purchases, as some suppliers provide international service . For an accurate quotation, it is recommended to contact suppliers directly with your required model, cable specifications, and any customization needs. This ensures you receive a precise price including shipping, taxes, and optional features.
