

Price of Elbows for 3D Cable Trays

Article Overview

Cable tray elbows typically cost around \$1.30 each for bulk orders, with prices varying based on material and supplier.

Pricing Overview

Cable tray elbows are available in galvanized steel, stainless steel, and aluminum, with prices influenced by material, size, and order quantity. For bulk purchases, galvanized and stainless steel elbows can start at approximately \$1.30 per piece . Prices may increase for smaller orders, custom angles, or premium materials.

Material Considerations

- o Galvanized Steel: Offers strong corrosion resistance and durability, ideal for industrial and outdoor installations .
- o Stainless Steel: Provides superior corrosion resistance, hygiene, and longevity, suitable for chemical plants or environments requiring cleanliness .
- o Aluminum: Lightweight and corrosion-resistant, ideal for elevated or coastal installations .

Angle and Type

Cable tray elbows are typically available in standard angles such as 15°, 30°, 45°, 60°, and 90°, and can be welded or seamless. The choice of angle and type can slightly affect the price .

Supplier Options

- o Alibaba.com offers bulk pricing and customizable options for industrial use .
- o McMaster-Carr provides a wide selection of cable trays and fittings with same or next-day delivery, though prices may vary depending on specifications .
- o TraceParts provides CAD models and supplier catalogs for design purposes, which can help in selecting the right elbow before purchase .

Practical Tip

When selecting elbows, consider material compatibility to prevent galvanic corrosion (e.g., aluminum near steel) and ensure proper installation for long-term durability . In summary, for standard bulk orders, expect prices around \$1.30 per elbow, with variations depending on material, angle, and supplier.
