

Price of Hydraulic Distribution Box Cover

Article Overview

Hydraulic distribution box covers typically range from \$50 to \$200 depending on size, material, and supplier.

Hydraulic distribution box covers are available in various materials such as stainless steel, PS plastic, or metal alloys, and may include hydraulic rods or flip mechanisms for easy access . Decorative options with artistic finishes or advanced printing technology can cost more due to aesthetic enhancements and anti-aging treatments . Standard functional covers without decorative features are generally less expensive.

Factors Affecting Price

- o Material: Stainless steel or reinforced metal covers are more durable and costlier than plastic or PS covers .
- o Size: Larger covers or custom dimensions increase the price.
- o Mechanism: Hydraulic-assisted opening or flip closures add to the cost.
- o Supplier: Prices vary between online marketplaces like Amazon, AliExpress, and specialized hydraulic suppliers such as Hydrastore or Total Hydraulics .

Where to Purchase

- o Amazon UK/US: Offers decorative hydraulic meter box covers with prices typically starting around \$50-\$150 depending on size and design .
- o AliExpress: Provides bulk or standard distribution box covers, often at lower prices, suitable for electrical or hydraulic applications .
- o Specialized Suppliers: Hydrastore and Total Hydraulics provide industrial-grade hydraulic distribution boxes and covers, with pricing available upon request or quotation . For an exact price, it is recommended to measure your box dimensions, select the desired material and mechanism, and contact suppliers directly for a quote. This ensures compatibility and accurate cost for your specific hydraulic system.
