

Price of butterfly-shaped drop optical cable

Article Overview

The price per unit of butterfly-shaped drop optical cable ranges from approximately \$0.01 to \$26.8, depending on type, fiber count, and purchase volume.

Pricing Overview

Butterfly-shaped drop optical cables, also known as figure-8 cables, are widely used in FTTH (Fiber to the Home), FTTB (Fiber to the Building), and FTTX networks. Prices vary significantly based on fiber type (single-mode or multi-mode), core count, jacket material (LSZH or armored), and whether the purchase is B2B or B2C. For bulk purchases from manufacturers on platforms like Alibaba, prices can be as low as \$0.01 to \$0.03 per meter for duct-type cables, while retail or smaller B2C packages may cost \$0.28 per meter or higher for 100ft cables .

Factors Affecting Price

- o Fiber Type: Single-mode cables (9/125 um) are optimized for long-distance, high-bandwidth applications and may cost more than multi-mode cables (50/125 um or 62.5/125 um) used for short-range LAN or intra-building connections .
- o Jacket Material: LSZH (Low Smoke Zero Halogen) jackets are common for indoor and environmentally sensitive installations, while armored or metallic jackets provide additional protection for outdoor or high-risk environments .
- o Core Count: Cables with more fiber cores (e.g., 2, 4, or 8 cores) generally have higher unit prices due to increased material and manufacturing complexity .
- o Purchase Volume: Bulk orders significantly reduce the per-unit cost, especially when sourced directly from manufacturers .

Typical Applications

- o Indoor Networks: Lightweight, flexible, and easy to install in offices or residential buildings.
- o Outdoor-to-Indoor Transitions: Armored or duct-type butterfly cables provide durability and weather resistance for last-mile connections .
- o Data Centers and Telecom Backbones: High-performance single-mode cables ensure minimal signal loss and high-speed data transmission .

Recommended Sourcing

For cost-effectiveness, especially for large-scale deployments, it is advisable to source directly from B2B

Price of butterfly-shaped drop optical cable

platforms or manufacturers, which offer lower per-unit prices and customizable specifications. Retail platforms are more suitable for small-scale or individual installations but come at a higher per-unit cost. In summary, the price per unit of butterfly-shaped drop optical cable depends on specifications, quantity, and supplier, with a typical range from \$0.01 to \$26.8 per meter or unit, making bulk B2B purchases the most economical option for large deployments.

Description FTTH drop cable with easy accessibility to the fiber and simple installation, FTTH cable can be directly connected to the

Find high-quality butterfly FTTH drop cables for reliable fiber optic communication. Shop our range of self-supporting and durable

Self-supporting Butterfly Drop Cable with central fiber core and dual strength members. Ideal for FTTH, aerial/duct installations, and

Explore the details, specifications and video of our Indoor Butterfly GJXH FTTH Fiber Optic Cable, and

Hangzhou Hi Link Electronics Co.,Ltd.is a leading manufacturer and supplier of optical fiber cables, network cables coaxial cables

Butterfly drop cable for outdoor overhead use (GJYXCH/GJYXFCH) Product Description: GJYXCHI (GJYXFCH) [Metal (or non

Unlock seamless connectivity with Butterfly Drop optical fiber cable. Experience reliable, high-performance cabling solutions that

We are Cable manufacture and supplier, provide Self-Supporting Butterfly Lead-in Optical Fiber Cable Self

Find High Quality Manufacturer Suppliers and Products at the Best Price on Alibaba.com

FTTH outdoor drop cable (GJYXFCH/GJYXCH) is also called self-supporting butterfly drop optical cable

Butterfly Drop Cable It is mainly used as a fiber to the home (FTTH) and other fiber optic access (FTTx) network user introduction

Butterfly FTTH drop cable is a popular type of fiber access optical cable, according to the different application environment and laying

Price of butterfly-shaped drop optical cable

Butterfly Flat FTTH Drop Cable from sFiberOptic.com, quality supplier for fiber optics, fiber cables, fiber testers and fiber tools. Free

Fasten has both butterfly drop cable and self-supporting butterfly drop cable. The cable weight ranges from 12 to 28 kg/km.

Therefore, FTTH drop cable is a type of cable which directly introduces fiber optic networks into user
