

Price of fiber optic cable box and socket panel

Article Overview

Fiber optic splice boxes and socket panels typically range from \$10 to \$50 per unit, depending on type, port count, and features.

Fiber Optic Splice Boxes

Fiber optic splice boxes, also known as splice enclosures or distribution boxes, are used to protect and manage spliced fiber cables. They are installed in network cabinets and can accommodate multiple connector types such as LC, SC, E2000(R), or ST . Prices for standard splice boxes vary based on size, pre-assembly, and customization options, generally starting around \$20-\$50 for small indoor units. High-capacity or outdoor-rated boxes may cost more.

Fiber Optic Wall Socket Panels

Indoor fiber optic wall sockets or FTTH outlets provide a secure termination point for fiber cables in homes or offices. They support SC, LC, and FC adapters, feature dust covers, and are made from durable ABS plastic . Typical 1-2 port wall socket panels are priced around \$10-\$25 per unit, with dual-port models slightly higher due to additional adapters and internal space . These panels are compact, easy to install, and optimized for FTTH applications.

Termination and Socket Panels

FTTH termination boxes or socket panels allow pigtail splicing and cable management. For example, a 2-port fiber optic socket panel designed for SC, LC, and FC connectors is priced in the \$15-\$30 range, offering tool-free access, flame-retardant ABS construction, and larger internal space for easier operation . Single-port termination boxes with pre-terminated pigtails may cost around \$10-\$20 depending on length and connector type .

Summary of Price Ranges

- o 1-port FTTH termination box: \$10-\$20
- o 2-port fiber optic socket panel: \$15-\$30
- o Standard indoor splice box: \$20-\$50
- o Custom or high-capacity splice boxes: \$50+ These prices can vary based on supplier, shipping, and additional features such as waterproofing, dustproofing, or pre-terminated pigtails. For bulk purchases or specialized configurations, contacting distributors like EFB-Elektronik or online retailers may provide better pricing and customization options .

Price of fiber optic cable box and socket panel

Fiber Optic Splicing: Enclosures can also hold fiber optic splice trays, enabling on-site splicing and providing storage space for fiber

The fiber wall outlet (also known as fiber wall plate, faceplate, or rosette box), is a compact surface mount box designed for FTTH

Explore FiberMania fiber optic termination boxes for FTTH and small networks. Durable enclosures with 4-48 ports, adapter

This Fiber Optic Wall Outlet FOSPP is an fiber optic cable end port and CATV end port used for indoor

This mini Fiber Optic Socket Panel fiber optic termination box is used for splicing and termination between indoor fiber optic cable

About this item SUPERIOR PROTECTION. The fiber panel box provides superior protection as the main function of the panel is to fix

This FTTH Fiber Faceplate SC LC Optical Socket Panel SP01B is designed to splicing and termination

GELRHONR FTTH Fiber Panel Box Enclosure, 2 Core Fiber Optic Terminal Distribution Junction Box Double-Port SC/APC Type

6Port Wall Mount Fiber Enclosure with Spool LC-MM OM3 Multimode Kit (Includes 1 Meter 12 Strand LC-UPC OM3 Pigtail and 6

Fiber Optic Wall Mount Box with LC Couplers for Single Mode & Multimode Fiber Optic Cable. | Fiber Box Enclosure for MPOE's,

When choosing enclosures for your fiber optic networks, fiber optic enclosures are constructed to protect and organize delicate fiber

LC-OM3 12 Duplex 24 Port Fiber Enclosure Box - 1 RU Rack Mount Multimode LC-UPC Kit for 19" Racks - Includes Splice Trays,

It is made of high-quality ABS plastic, which is anti-collision and shockproof. Dimensions: 120 x 90 x 25mm, small and
