

Article Overview

Top Austrian industrial switch manufacturers include Kraus & Naimer, BENEDICT GmbH, WAGO, and SCHMACHTL, offering high-quality cam switches, main switches, safety switches, and PoE+ network switches for demanding industrial applications.

Kraus & Naimer

Kraus & Naimer is a global leader in cam switches and industrial switches, providing solutions for main circuits, control circuits, repair switches, and switch disconnectors. Their modular system allows for customized switches with extras like locking devices, key switches, and auxiliary contacts. Products meet national and international standards, making them suitable for automation, mechanical engineering, and plant construction .

BENEDICT GmbH

BENEDICT specializes in low-voltage switchgear, including cam switches, transfer switches, diverter switches, motor starters, and circuit breakers. Their switch series range from 20A to 63A, with international approvals and multiple design options. These switches are designed for error-free connections and reliable operation in industrial environments .

WAGO

WAGO offers Power-over-Ethernet (PoE+) switches ideal for automation networks. These switches combine data transfer and power supply over a single Ethernet cable, reducing wiring complexity and costs. They support ring redundancy for reliable communication even during line interruptions and operate in extended temperature ranges from -40°C to +70°C. WAGO provides both managed and unmanaged switches, suitable for high-end industrial automation .

SCHMACHTL

SCHMACHTL provides a wide range of main switches, safety switches, and cam switches. Their products are modular, highly reliable, and designed for automation, mechanical engineering, and plant construction. Cam switches are manually operated with 1 to 24 contacts and multiple switching angles, while main switch disconnectors are available in 3-, 4-, 6-, and 8-pole versions, including changeover switches with center-off positions .

Summary

For industrial applications in Austria, the recommended switches include:

- o Kraus & Naimer: versatile cam and main switches with custom options
 - o BENEDICT GmbH: low-voltage cam, transfer, and diverter switches
 - o WAGO: PoE+ network switches for automation with ring redundancy
 - o SCHMACHTL: main and safety switches with modular, high-reliability designs
- These manufacturers provide robust, compliant, and customizable solutions suitable for demanding industrial environments, ensuring safety, reliability, and operational efficiency.
