

Article Overview

2-core butterfly optical cables typically range from \$0.50 to \$1.50 per meter depending on specifications, quantity, and supplier.

Price Range and Suppliers

- o Alibaba offers wholesale 2-core butterfly optic cables with prices varying based on order volume and customization. Bulk orders generally reduce the per-meter cost .
- o AliExpress lists 2-core FTTH drop cables (G652D single-mode) in 1000m or 2km rolls, with approximate retail prices around \$500-\$800 per 2km roll, depending on fiber type and jacket material .
- o Made-in-China suppliers provide single-mode 2-core FTTH flat cables (GJXH type) with factory-direct pricing, often negotiable for large orders .
- o Specialized suppliers like mefiberoptic.com offer 2-core FTTH drop cables (G.657A2, LSZH jacket, FRP strength members) suitable for indoor installations, with prices typically in the \$0.60-\$1.20 per meter range for standard lengths .

Factors Affecting Price

- o Fiber Type: Single-mode (OS2) is standard for FTTH; multi-mode may be slightly cheaper.
- o Jacket Material: LSZH (Low Smoke Zero Halogen) cables are more expensive than PVC due to fire safety compliance .
- o Strength Members: Cables with FRP or steel reinforcement cost more but offer better durability.
- o Roll Length: Longer rolls (2 km) reduce per-meter cost compared to shorter 100-500m rolls.
- o Certifications: CE, ROHS, and UL-certified cables may carry a premium.

Buying Tips

- o For bulk procurement, contact manufacturers directly on Alibaba or Made-in-China to negotiate pricing and request free samples .
- o For smaller quantities, AliExpress or specialized online suppliers provide ready-to-ship options.
- o Consider pre-connectorized or bend-insensitive G.657A2 cables for easier installation and reduced labor costs . By comparing suppliers and specifications, you can select a 2-core butterfly optical cable that balances cost, performance, and installation requirements.
