

Article Overview

Bevec d.o.o., Hermi, and Elba d.o.o. are leading Slovenian manufacturers offering high-quality cable trays, with options for fire-resistant installations.

Bevec d.o.o.

Bevec d.o.o. manufactures a wide range of cable trays suitable for industrial, transport, and infrastructure projects. Their trays are available in widths from 50 to 600 mm and heights from 50 to 60 mm, with materials including galvanized sheet, hot-dip galvanized sheet, stainless steel, and powder-coated finishes. While their standard trays are robust and adaptable, they can be customized for demanding environments, which may include fire-resistant applications when paired with appropriate cables and supports .

Hermi

Hermi is a high-tech Slovenian company specializing in cable trays and mounting systems. They focus on innovation and quality, offering solutions for both internal and external protection, including surge and lightning protection. Hermi's cable trays are designed for complex installations and can be integrated with fire-resistant systems, ensuring safety and compliance in critical infrastructure projects .

Elba d.o.o.

Elba d.o.o. is a leading Slovenian manufacturer and distributor of electrical installation products, including cable trays. They utilize advanced machinery such as TRUMPF laser systems and computer-guided bending machines to produce precise, high-quality trays. Their products can be powder-coated for durability and aesthetic appeal. Elba provides technical support and customization, which can include fire-resistant configurations for specialized installations .

Fire-Resistant Cable Tray Considerations

For fire-resistant applications, it is essential to maintain the functionality of critical electrical systems such as emergency lighting, fire alarms, and smoke extractors. Basor Electric highlights that fire-resistant trays, supports, and accessories are tested to ensure circuit integrity under extreme fire conditions. Slovenian manufacturers can collaborate with engineers to select materials and designs that meet local and international fire safety standards .

Summary

For projects requiring fire-resistant cable trays in Slovenia, Bevec d.o.o., Hermi, and Elba d.o.o. are reliable

manufacturers offering customizable solutions. They provide high-quality materials, technical support, and compliance with safety standards, making them suitable for industrial, commercial, and infrastructure applications. For specialized fire-resistant installations, consulting with the manufacturer about specific certifications and testing is recommended.
