

Type 1310 optical transmitter

Preview

The OT 1200 series optical transmitters are directly modulated DFB transmitters with a wavelength of 1310 nm. With an operating bandwidth of up to 1218 MHz, they are DOCSIS 3.1 compatible and ideal for use in headend hubs in CATV networks. Mouser offers inventory, pricing, & datasheets for Singlemode 1310 nm Fiber Optic Transmitters, Receivers, Transceivers. A 1310nm optical module lets you move data efficiently through fiber optic communication networks. The successful development of this. Description: MACOM's transmitter optical sub-assemblies (TOSA) are focused on enabling our customers high performance/high bit rate optical transceivers operating at 100G and beyond.

Overview 1310Pxx series indoor 1310nm optical transmitter adopts famous brand high linearity DFB laser, and build-in perfect pre-distortion adjustment circuit. Owning the internal micro-processor auto

The FIBT-1310 Series is an ideal solution to seamlessly transport extremely high-speed digital data over single-mode optical fiber.

1310 nm Fibre Optic Transmitters, Receivers, Transceivers are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for 1310 nm Fibre Optic Transmitters, Receivers, Transceivers.

1310nm optical module offers reliable, cost-effective data transmission for metro, campus, and enterprise networks. Compare performance, reach, and

1310nm optical transmitters are a critical component in fiber optic communication networks. They operate at a wavelength of 1310 nanometers, which is optimal for long-distance transmission due to

The transmitter operates at a nominal wavelength of 1310 nm. Access to RF input, electrical control signals I/Os and amplifier supply is through a flexible printed circuit board. The RF input is self biased

This type of 1310nm outdoor optical transmitter is often used as optical relay station for the field catv project.

Mouser offers inventory, pricing, & datasheets for Singlemode 1310 nm Fiber Optic Transmitters, Receivers, Transceivers.

This Netceed product provides a high quality low cost transmitter solution for a 1310nm optical fiber CATV system.

Fiber Optic Transmitters, Receivers, Transceivers Juniper Networks EX-SFP-GE60KT14R13 Compatible

Type 1310 optical transmitter

TAA 1000Base-BX SFP Transceiver (SMF, 1490nmTx/1310nmRx, 60km, LC, DOM) [Learn More](#)

Polytron 1310 nm optical transmitters for CATV networks. High-performance fiber optic transmitters operating at 1310 nm wavelength for cable TV systems.

Wisi OL 16 1310 is an optical transmitter kit that is designed to convert satellite, DVB-T/T2, DAB, and FM signals into an optical output signal. This kit includes a wideband LNB OC 07E and an

Find 1310nm Optical Transmitters related suppliers, manufacturers, products and specifications on GlobalSpec - a trusted source of 1310nm Optical Transmitters information.

1310nm optical modules are essential for efficient data transmission in fiber optic networks, especially for medium distances. These modules offer low

The OT 1200 series optical transmitters are directly modulated DFB transmitters with a wavelength of 1310 nm. With an operating bandwidth of up to 1218 MHz, they

FTTH 1310nm 10mW Mini Optical Transmitter has 10mw optical power output, which can be used in small hfc network.
