

Article Overview

UK suppliers offer a range of container racking systems with custom quotes available to suit your storage needs.

Overview of Options

Several UK companies provide integrated container racking and shelving systems suitable for outdoor use:

- o Budget Shipping Containers offers a variety of racking and shelving solutions for shipping containers, with the option to request a custom quote for bespoke configurations .
- o QuickFit Container Accessories provides 1- to 4-tier shelving, bolt-on or weld-on D-rings for stability, and adjustable racking systems designed for industrial or personal use. They emphasize durable, high-quality materials and fast UK shipping .
- o Gap Containers supplies free-standing or self-assembly racking, including bespoke solutions for refrigerated or standard containers. They offer installation services if you provide your own racking or choose their products .
- o Universal Containers features flexible shelving and racking configurations, designed for easy installation and long-lasting performance, suitable for tools, equipment, and general storage .
- o Container Rack allows you to build your own racking layout using adjustable uprights and brackets, with options for standard or heavy-duty duty racking, powder-coated for durability, and suitable for standard or high-cube containers .

Pricing and Custom Quotes

- o Prices vary depending on tier levels, weight capacity, material, and customization. Standard duty racking typically suits moderate loads, while heavy-duty options are available for industrial applications .
- o Most suppliers, including Budget Shipping Containers, Gap Containers, and Container Rack, provide free or custom quotes upon request. You can contact them via their websites, email, or phone to receive a tailored price based on your container size and storage requirements .

Recommendations

- o Determine your container size and load requirements to select the appropriate racking system.
- o Request multiple quotes from suppliers to compare pricing, delivery, and installation options.
- o Consider adjustable or modular systems if your storage needs may change over time.
- o Check for outdoor durability, including powder-coated or galvanised steel options, to ensure longevity in external environments.
