

What are some cable tray manufacturers in Pakistan

Article Overview

Leading cable tray manufacturers in Pakistan include EPEPK, Alfazal Engineering, Power Engineering (Pengpk), and IES Manufacturing, offering a wide range of cable management solutions for industrial, commercial, and infrastructure projects.

Top Manufacturers and Their Offerings

1. EPEPK (Electric Power Engineering Pakistan) EPEPK is a trusted manufacturer supplying perforated, ladder, wire mesh, and solid bottom cable trays across Lahore, Karachi, Faisalabad, and Islamabad. They provide trays in mild steel, galvanized iron, and stainless steel, with finishes like pre-galvanized, hot-dip galvanized, and powder-coated. EPEPK emphasizes load-bearing capacity, ventilation, and safety, catering to industrial plants, commercial buildings, and solar projects. They also offer custom sizes, thickness options (1.2mm-2.0mm+), and installation guidance for safe and compliant setups . 2. Alfazal Engineering Alfazal Engineering specializes in high-quality perforated, ladder, and customized cable trays. Their manufacturing facilities use CNC systems, hydraulic press brakes, and powder-coating to ensure precision and durability. They provide corrosion-resistant finishes and custom designs for industrial, commercial, and infrastructure projects. Alfazal Engineering also offers installation services, accessories, and nationwide delivery, making them a reliable choice for large-scale projects . 3. Power Engineering (Pengpk) Pengpk manufactures a wide range of cable trays including perforated and ladder types, with thickness options from 1.6mm to 3.0mm and lengths up to 3 meters. They provide customized designs, fittings, and support structures such as cantilevers, Unistrut channels, and clamps. Pengpk focuses on industrial and commercial applications, ensuring corrosion resistance and timely delivery for bulk orders . 4. IES Manufacturing Pakistan IES offers ladder, perforated, and custom cable trays in GI, stainless steel, aluminum, and powder-coated finishes. They also fabricate supports, J-bolts, corner fittings, and other accessories. Their products are widely used in power generation, chemical, petroleum, and industrial sectors, adhering to IEC 61537 standards for cable management .

Key Considerations When Choosing a Manufacturer

- o Tray Type: Perforated trays for indoor wiring, ladder trays for heavy industrial cables, wire mesh for IT/data centers.
- o Material & Finish: Mild steel, GI, stainless steel, or aluminum; powder-coated or galvanized for corrosion resistance.
- o Customization: Ability to provide custom widths, lengths, and thicknesses.
- o Support & Accessories: Availability of bends, tees, risers, clamps, and support structures.
- o Service Coverage: Manufacturers with nationwide delivery and installation support ensure faster project completion. These manufacturers provide comprehensive cable management solutions suitable for industrial, commercial, and solar infrastructure projects across Pakistan, ensuring safety, durability, and compliance with
