

Where to buy anti-electrostatic fiber optic cable

Article Overview

You can purchase high-quality anti-electrostatic fiber optic cables from specialized suppliers like Cables Plus USA, FiberCablesDirect, FiberOptic Supply, and trueCABLE, all offering industrial-grade, indoor/outdoor, and armored options.

Recommended Suppliers

1. Cables Plus USA Cables Plus USA offers a wide range of fiber optic products, including bulk fiber cables, armored cables, and high-density MTP/MPO assemblies. They provide ISO 9001:2015 certified products and Telcordia GR326-compliant assemblies, ensuring reliability for professional installations. Their selection includes cables suitable for anti-static and high-performance applications, ideal for data centers or industrial environments . 2. FiberCablesDirect FiberCablesDirect specializes in indoor/outdoor, water- and UV-resistant fiber optic cables. They offer custom-built cables, including TAA-compliant and Made in USA options, with fast shipping and lifetime warranty. Their inventory includes singlemode and multimode patch cables, armored cables, and anti-static variants suitable for sensitive electronics . 3. FiberOptic Supply FiberOptic Supply provides a broad selection of fiber optic materials, including plenum-rated, armored, and micro-armored cables. They carry indoor/outdoor and industrial-grade cables, along with tools and consumables for installation. Their products are suitable for environments requiring anti-electrostatic protection and high durability . 4. trueCABLE trueCABLE offers performance-tested fiber optic cables certified to ANSI/TIA standards and IEC 61300-3-35. Their selection includes bulk distribution cables, patch cables, and MTP/MPO assemblies. Many of their cables are designed for low insertion loss, high repeatability, and anti-static performance, making them suitable for professional networking and industrial setups . 5. Amazon and Newegg For smaller-scale or consumer-grade needs, Amazon and Newegg carry a variety of fiber optic cables, including armored and braided options that reduce static interference. These platforms offer SC/APC, LC, and other connector types, with lengths ranging from 1 meter to hundreds of meters .

Tips for Selecting Anti-Electrostatic Fiber Optic Cables

- o Check the jacket material: Look for cables with anti-static, plenum-rated, or TPU jackets for static protection.
- o Connector type: Ensure compatibility with your devices (LC, SC, ST, MPO/MTP).
- o Indoor vs. outdoor: Choose armored or UV-resistant cables for outdoor installations.
- o Compliance: Verify certifications like TIA, Telcordia, or ISO standards for industrial reliability.
- o Custom lengths: Many suppliers offer custom cable lengths to reduce excess slack and improve safety. By sourcing from these suppliers, you can ensure your fiber optic installation is protected against electrostatic discharge while maintaining high data integrity and durability.

Where to buy anti-electrostatic fiber optic cable

View Eland Cables" range of singlemode and multimode fibre optic cables - loose tube and tight buffered. Technical support, fast
